

# Why our customers love the REGAL so much!

- Blueprint for **rock solid construction**. The REGAL has both glue and dowel and cam lock construction for superior strength and durability. Competitors only use cam locks which become loose over time.
- The REGAL is the only cabinet with a **flat top** again for ultimate strength. Competitors have an in-laid top which is weaker and has is more susceptible to collapse when weight is put on top.
- **Patented door mounted paper guard** which swings away for faster service. Competitors have the old fashioned wooden boards to prevent entry. These boards scrape knuckles and make it slower to service. Plus, the REGAL can have a slightly shorter footprint because it does not need the extra height to accommodate the wooden boards.
- **Patented stay in place bag hooks** which allow the weight of the paper in the bag to fall against the bottom of the cabinet and not pull away from the sides like other cabinets.
- **Original Ergo- Design featuring built in handles** which allow for easier placement of the cabinet in the workplace. The handles minimize work place back injuries and soft tissue injuries through improper lifting.
- **Complete edge banding** on all sides of the cabinet to completely seal the edges.
- **Corner protectors** on all four bottom corners to prevent damage from vacuuming or floor mopping.
- **180-degree piano style door hinge** to allow for a full opening during service.
- **The only square bottom collection bag** which allow for a more complete fill and eliminates loose papers. Made of heavy duty 420 denier fabric with reinforced grommets, provides years of use.
- **Comes completely assembled and individually boxed** for safe delivery.
- **Dimensions (inches) 19W x 17D x 35H**
- **Capacity: up to 90 lbs. (41 kg);** fully compliant with The Joint Commission
- **Three sizes: 35" tall, 27" tall and 24" tall.**

## ADVANTAGE THROUGH INNOVATION

Regal 35" Cabinet

Regal Line Up: 35", 27" and 24"

We started with a clean sheet of paper to create the best possible products for secure and effective document collection. Through research and interviews, we soon understood the shortcomings of the existing products and set out to solve those issues. We are proud of our products with their many new and innovative solutions that not only deliver class leading performance, but also promise you outstanding customer satisfaction.

### Our REGAL Promise:

- Maximized return on your investment
- Maximized end user/customer satisfaction
- Maximized efficient servicing at every cabinet and desk
- Maximized employee job satisfaction
- Maximized profits

Proudly served.  
Proudly support.

# INNOVATIVE SOLUTIONS

## Regal Ergo 35" Cabinet™

The innovative Regal Ergo Cabinet is the perfect product for effective document collection in the office. Besides its small footprint, the cabinet has many unique features like: a door mounted paper guard, hooks that won't bend or come out, locks that lock automatically, and a custom fit heavy duty bag. All help you to save time at every service call.

The Regal Ergo Cabinet is now pre-assembled with glued dowels for maximum strength. Together with our new corner protectors this promises to extend the life of each cabinet. All of this adds up to a greater return on your investment, both in longevity of the cabinet, as well as time saved at every service stop.

## for ease of service

**New! Corner Protectors**  
Plastic corner protectors prevent damage to the sensitive bottom corners and will add years of life. Protectors also serve as glides for easy moving.

**Integrated Moving Handles**  
Convenient handles are integrated into the cabinet and make it easy to move without damaging it.

**Door Mounted Paper Guide**  
Mounting the paper guide on the door means it moves out of the way when the door is opened, allowing easier access to the Steady Bag™. Patent pending.

**Steady Bag™**  
A high capacity flat bottomed bag is at the heart of every cabinet. Two long handles make emptying easier. Made of heavy duty 430D fabric for years of use. Gray with screen printed logo makes it easy to reposition.

**Steady Hook™**  
Each Steady Hook easily supports 200 lbs without bending or pulling out! Unique shape makes taking Steady Bag™ in and out easy. Patent pending.

**Strong Piano Hinge**  
Our piano hinge runs the full height of the front door giving one of the cabinet's most crucial components superior strength and longevity. The door opens a full 180° for easy access.

**Automatic Hafele® Lock**  
Unlock the door and go ahead and take the key out. Door locks automatically when closed, no time wasted locking the cabinet! Our cabinets and desk containers are keyed alike.

**Plus:**

- Assembled with glued dowels for maximum strength
- Standard, extra thick edge banding all the way around
- Individually boxed and assembled for safe delivery
- Dimensions (in): 19W x 17D x 35H
- Capacity: Up to 90 lb (41 kg)

**Regal makes servicing less cumbersome!**
